Rania Mankarious is the current CEO of Crime Stoppers of Houston. In that capacity, she is intimately familiar with the crime problems in Harris County. She will share her expertise, and experience to let us know which policies are responsible for our crime wave and what we can do about it.

Always working, Mankarious has written over 200 articles on public safety. In addition to researching and writing, she’s also argued for school safety in front of the Texas House and Senate and changed laws in the State of Texas pertaining to camp safety. Creative in her pursuit to keep conversations going, Mankarious and her team also created The Balanced Voice Podcast.

She is also the author of “The Online World – What You Think You Know and What You Don’t”

Which:

- Dispels the top seven myths parents have about the online world.
- Creates simple rules to cover over 2.2 million apps.
- Shares parent hacks your kids can’t manipulate including how to see where and how your child is truly spending their time on their phones.
- Sheds light on the top internal and external online threats millions of kids face every day—including yours.
- Dives into the 6-step grooming process of predators.
- Gives you 3 red flags to watch for with ANY online connection.
- Walks you through Raina’s 4 Power Tools, leaving you with a strategy to create your child’s online safety plan with them!

Fortunately for us, she will be bringing copies of her book to our meeting where you can purchase a personally signed copy!
